

FOR OUR DAUGHTERS

FOR SHANAS

MUSIC & LYRICS BY MARIA LANDI

VERSE

Get down, cover your head
Don't wear bright colors
Get down, that's what they said
Then came the thunder
Shattered fragments on the ground
I was alone and broken down
Get down, that's what they said

But I wasn't given life just to leave it
On a battlefield torn to pieces
They could turn my home into a war zone

CHORUS

But I can build a home out of ashes
With four walls of compassion
Come in, don't be shy
I can raise the ceiling up higher
So we can stand a little taller
See a little farther, make a place
Where our daughters can be free

VERSE

Stand up, hold your head high
Show your colors
Stand up, speak your mind
You're like no other
They will try to tear us down
But together we'll stand our ground
Stand up, don't you dare hide

'Cause we weren't given life just to leave it
On a battlefield torn to pieces
They could turn our homes into war zones

CHORUS

But we can build a home out of ashes
With four walls out of compassion
Come on in, don't be shy
I can raise the ceiling up higher
So we can stand a little taller

See a little farther, make a place
Where our daughters can be free
Make a place where our daughters can be

'Cause I wasn't given life just to leave it
On a battlefield torn to pieces

We can build a home out of ashes
With four walls of compassion
Come in, don't be shy
I can raise the ceiling up higher
So we can stand a little taller
See a little farther, make a place
Where our daughters can be free
Make a place
Where our daughters can be free
